

HOW TO FIND YOUR LOCATION

Locations are – for the most part – on the Boardwalk railing, between 9th and 32nd Streets. The sites are numbered from south to north, along the rail. Numbering begins at the first location North of the steps to the beach at each street.

For example, where 18th Street meets the Boardwalk, the locations begin north of the steps and continue Northward – 1801, 1802, 1803, etc.

Each site is 10' wide by 10' deep from the rail and is defined by the space between two uprights of the Boardwalk railing.

The Demarcation Line (line break splitting the middle of the boardwalk) is 12' from the rail. **You are only permitted 10' from the rail (per your lease agreement) to provide access for emergency vehicles. At no time are signage, awnings, windows, tables, etc. permitted to extend past your allocated 10' space.**

(see photo on following page)

- Your space will be identified with a printed tag with your Vendor Name and Booth #. Please note that the tag is placed in the **center** of your allocated space. Empty spaces between concessions **must** be left empty.
- Because there will be tents erected before your arrival, it might be a good idea for you to check out the Boardwalk ahead of time to find where your location will be.
